

EASY-FILL BOX FILLER

QUALITY HANDLING EQUIPMENT

Our range of box handling equipment is comprehensive & offers the gentlest handling of crop

'Easy-Fill' twin box fillers have made Tong Peal the number one in box handling machinery. Our unique Doorstop belt offers the gentlest handling of crop, with rubber fingers that gently hold crop without the need for conventional curtain hoods. One reversible crop conveyor with lowering ends makes box filling 'easy', fast and gentle, with minimum drop. All Tong Peal box fillers are now manufactured with linear actuators controlling lowerators to reduce maintenance & improve efficiency, as well as new easy-to-use pictorial controls.

EasyFill box fillers are available in a range of models including Mini, Midi, Maxi and Mega based on the size of boxes and tonnage required. Fully automatic operation via a micro processor and crop sensors, the EasyFill evenly fills the boxes by traversing the conveyor over the box.
