# CB-48<sub>v2</sub>

- INNOVATION !
- PRODUCTIVITY !
- VERSATILITY !
- EASY OF USE !

# CB-48<sub>v2</sub>

## New Integrated Labelling Machine CEA-55

- Thermo printing in high definition.
- Cleaning and maintenance simplified by a pivot on shaft inside the CB-48v2.
- New system allows easy label format changes.
- Controlled from the CB-48v2 touch screen.

## Better Performance

- Up to 30 bags per minute depending on weight and product.
- Perfect finished bags with solid welds.
- New highly accurate spot detector.
- Transfer belt height adjustment is now motorized.
- New bobbin holders with self adjusting diameters.

## Easy of use

- Automatic selection of settings for several types of bags.
- Easy of use, due to the LCD touch screen.

# New advantages **D-pack**

## Compact

- Packages are more compact, improving presentation and saving cost of materials.
- More film width combinations; from 75mm through 145mm.
- Capable of utilising a wide variety of knitted and extruded nets.

## More net and films combinations

- Greater flexibility in bag design, capable of mixing varying film widths with varying types of netting, offering the ability to really customize the D-pack appearance and cost.

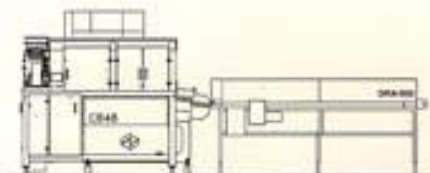

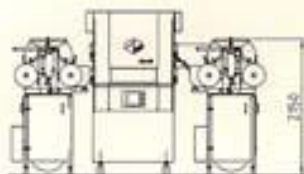

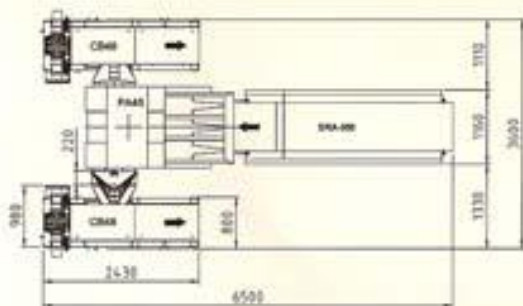

## Large Promotional area

- Optional registered film available on both sides, offering centered promotional space.

## Wide range of products

- All kind of citrus, potatoes, onions, garlic, tomatoes, kiwis, avocado, chestnuts, etc.

#### Technical specifications

· Consumption	2,5 Kw
· Power	220v/240v/380v/415v
· Frequency	50-60 Hz
· Air consumption	1.000 L/min.
· Working pressure	6 Kg / cm <sup>2</sup>
