## QUALITY HANDLING EQUIPMENT

Mild Steel Washlines

Stainless Steel Washlines

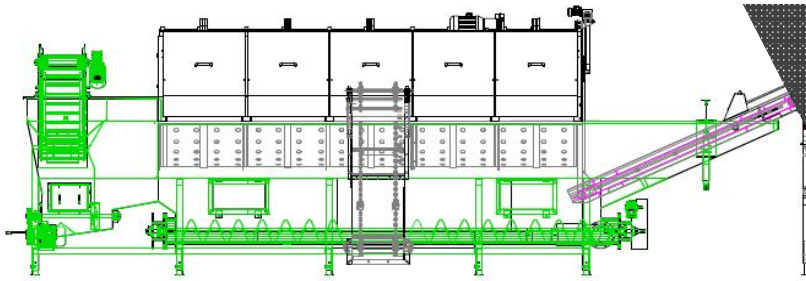

Complete Vegetable Washing Systems

## Our range of washing equipment is comprehensive & offers optimum results with the gentlest handling

With over 80 years experience in manufacturing efficient & gentle vegetable washing equipment, Tong Peal offer a complete solution to ensure your produce is the 'clean of the crop'. Our vegetable barrel washers are manufactured in a wide range of sizes and can be built with various optional extras for superior washing and capacities from 1.5 to 30 tonnes per hour.

From our latest innovation which combines washing and polishing with our Rotary Spray Washer, to our efficient and gentle U-Brush polisher, destoners, sponge driers and sample washers, Tong Peal can take care of your vegetable washing requirements from start to finish.

## WASHING EQUIPMENT SPECIFICATION DATA
